MUHAMMAD RIDWAN HIDAYATULLAH

Information Technology Graduate | Full-Stack Web Developer | System Analyst

Jakarta | +62 812-9980-0263 | ridwanhh10@gmail.com | linkedin.com/in/mridwanhidayatullah | github.com/Dwanmrh

SUMMARY

Information Technology graduate from Universitas Muhammadiyah Yogyakarta (GPA 3.69, Cum Laude) and BNSP Certified Web Developer. Experienced in taking web systems from requirements to deployment: mapping business processes into modules and user roles, designing relational databases, building the application, and deploying to production. Works mainly in PHP and Laravel, and has also built projects with JavaScript, Node.js, Kotlin, and Python. Open to developer and system analyst roles.

EXPERIENCE

Intern, Setukpa Lemdiklat Polri (Sukabumi) Jul 2025 – Sep 2025

- Built the official institutional website **setukpa.polri.go.id** using Laravel 12 and Tailwind CSS; live at **setukpa.com** while the move to the official domain is pending.
- Developed a content management system for news, information, schedules, facilities, and learning modules, with tiered access for Admin and Super Admin.
- Implemented OTP-based login verification with rate limiting on verification and resend attempts.
- Awarded a certificate of appreciation (Piagam Penghargaan) by the Head of Setukpa Lemdiklat Polri for building the website.

PROJECTS

SIPKKJ: Health and Physical Fitness Assessment System (Undergraduate Thesis) Laravel 12, MySQL

- Web-based system for Setukpa Polri that replaces manual scoring of health (Rikkes) and physical fitness (Kesjas) tests with paper, scoring handbooks, and Excel. Live at **sipkkj.setukpa.com** (login required) with 1,162 student records.
- Designed a rule-based automated scoring algorithm that converts test results into assessment scores based on gender and age group, including tests a student did not take.
- Four user roles (admin, Rikkes officer, Kesjas officer, student) and bulk Excel import/export; students see only their own results.
- Formulated the problem and system requirements as part of the thesis research, including a PHP framework comparison to justify the technology choice.
- Presented the paper on this system as first author at ICIC 2026, co-authored with Asroni and Slamet Riyadi.

Teh Solo de Jumbo Fibonacci: POS and Cash Bookkeeping (Capstone, Team of 4) Laravel 12, MySQL

- Implemented the database, backend, and frontend for a micro tea business, building on the team's ERD and UI/UX designs.
- Cashier and Admin roles, a point of sale with cash and QRIS payment confirmation, cash in and cash out records, and multi-outlet management.
- Financial reports exportable to PDF and Excel.

Student Complaint System (Course Project, Team of 2) Laravel 12, MySQL

- Built the backend in Laravel, while a teammate built the frontend.
- Role-based complaint and response workflow for students, lecturers, and admin, with status tracking and like/dislike; server-side checks let students and lecturers manage only their own data.

Coursework projects also include Android apps built with Kotlin, Jetpack Compose, Room, MVVM, and Firebase, plus CRUD apps with Node.js (Express, EJS). Code available at github.com/Dwanmrh.

SKILLS

Primary stack: PHP, Laravel, Tailwind CSS, MySQL
System design: Business process mapping, relational database design, role-based access design, report requirements
Backend: PHP, Laravel (MVC, Eloquent ORM, middleware), Node.js (Express)
Database: MySQL, schema design and migrations
Frontend: HTML, CSS, Tailwind CSS, Blade, JavaScript, React (basic)
Mobile: Kotlin, Jetpack Compose, Room, MVVM, Firebase
Other: Git and GitHub, Laragon and XAMPP (local development), web hosting and deployment, Python, C++ (OOP)

CERTIFICATIONS

- **Certified Web Developer (CWDev)**, BNSP. Valid Mar 2026 – 2029. Credential ID: TIK.317.00563 2026
- **IT Specialist: HTML and CSS**, Certiport. Valid Jun 2026 – 2031. Credential ID: 4hh5-XM3V (verify.certiport.com)

EDUCATION

Universitas Muhammadiyah Yogyakarta 2022 – 2026

Bachelor's Degree in Information Technology | GPA 3.69 / 4.00 (Cum Laude) | Graduated July 2026
